

## ADDISON ELECTRIC STOVE

In keeping with Vermont Castings trademark of quality stove design, the *Addison Electric Stove* is the choice for adding the traditional look of a cast iron wood stove to your home. The Electric Stove can go anywhere – no mantel or hearth is required, plus you will save tons on the installation! The Addison is available in classic black, green and midnight black porcelain enamel.

### Benefits:

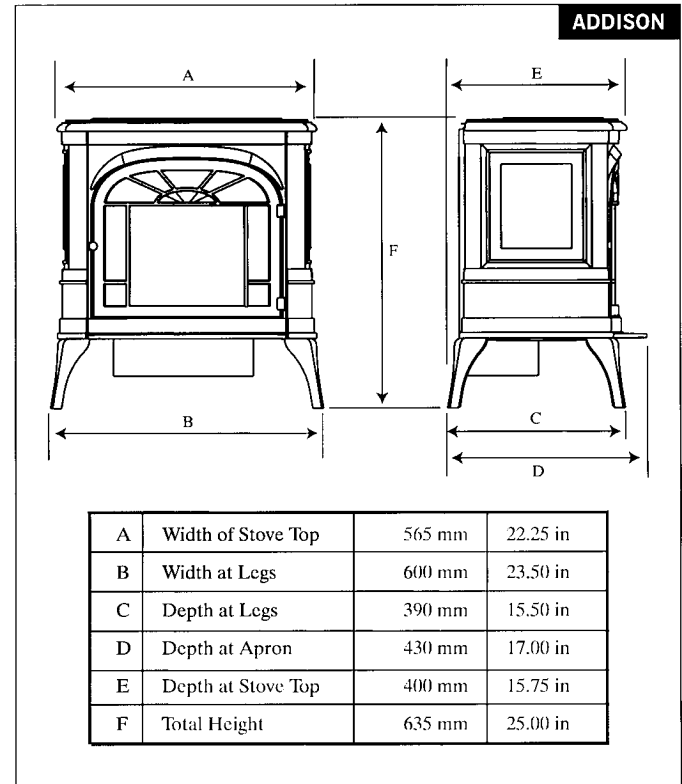

- Easy to install, plugs into any standard 120 volt outlet
- Ideal for new homes, high rise buildings, condominiums, apartments or cottages
- Can be relocated at any time, from room to room - or home to home if you move
- You can choose to operate the Addison Electric Stove with or without heat
- Easy to operate on/off controls
- Easy maintenance
- Lasting beauty of a Vermont Castings cast iron exterior

### Heating Capabilities:

- The Addison Electric Stove is designed to provide a comfortable level of heat. For example, it can keep a 14' x 18' room at a comfortable 68 °F / 20 °C temperature.

### Standard Features:

- 1,450 watts of power
- 4,500 BTU's
- Distributes an even heat by means of a quiet fan system
- Vermont Castings patented technology: randomized filtered lighting simulates flame pattern and glowing logs
- Actual deep, glowing ember bed without the use of mirrors
- Safety glass panel

In the interest of constant product improvements, we reserve the right to change specifications without notice. Before installations, please read Installation Instructions and check all local Building Codes and Gas Regulations.
